CDC Internship Summer 2025 In Headquarters For UnderGraduates

Description

The CDC (Centers for Disease Control and Prevention) Internship in Headquarters is an opportunity for students to gain valuable experience in public health while working at the CDC headquarters in Atlanta, Georgia. The internship is offered in various departments, including epidemiology, global health, laboratory science, and more. The program is designed to provide students with hands-on experience in public health research, analysis, and communication.

Responsibilities

Interns in the CDC headquarters will have a variety of responsibilities, depending on their assigned department. Some of these may include data analysis, literature reviews, assisting with research projects, creating educational materials, and assisting with communication and outreach efforts.

Qualifications

To be eligible for the CDC Internship in Headquarters, applicants must be currently enrolled in a college or university program and have a minimum GPA of 3.0. They should also have a strong interest in public health, as well as excellent communication, analytical, and research skills.

Job Benefits

The CDC Internship in Headquarters provides interns with valuable experience in public health research and analysis, as well as networking opportunities with professionals in the field. Additionally, interns receive a stipend to help cover living expenses during the program.

Overall, the CDC Internship in Headquarters is an excellent opportunity for students to gain hands-on experience in public health and make a positive impact on the health of communities both nationally and globally.
