Gsk Summer Internship 2025 Antibody Pharmacology Imaging Scientist For Students

Description

GSK Summer Internship 2024 is an incredible opportunity for students and recent graduates to gain hands-on experience in the world of antibody pharmacology imaging. The program offers an exciting opportunity for aspiring scientists to develop their skills in a dynamic and collaborative environment. As an Antibody Pharmacology Imaging Scientist, you will be a part of a team that is dedicated to discovering new treatments for some of the world's most challenging diseases.

Responsibilities

As an Antibody Pharmacology Imaging Scientist, your main responsibilities will include:

- Assisting in the development and validation of antibody-based imaging assays
- Conducting experiments and analyzing data to support the development of new therapies
- Contributing to the preparation and submission of scientific publications and presentations
- Collaborating with other scientists to design and execute experiments and interpret results

Qualifications

To be considered for the Antibody Pharmacology Imaging Scientist Internship, you must meet the following qualifications:

- Be enrolled in a graduate program or have completed a degree in Biology, Chemistry, Pharmacology, or a related field
- Have a strong understanding of molecular biology and pharmacology
- Possess excellent problem-solving, communication, and interpersonal skills
- Demonstrate a passion for scientific discovery and a desire to contribute to the development of new therapies

Job Benefits

- Hands-on experience in a cutting-edge research environment
- Opportunities for professional growth and development
- Exposure to a diverse range of scientific disciplines and projects
- Competitive compensation and benefits package

Contacts

To apply for the Antibody Pharmacology Imaging Scientist Internship, visit the GSK website or contact the GSK Human Resources department for more information. You can also connect with GSK on LinkedIn and follow them on Twitter to stay up-to-date on their latest news and events.

Experience

Previous experience in antibody pharmacology imaging is not required, but it is

Hiring organization

Gsk

Employment Type

Intern

Duration of employment

6 months

Industry

Pharmaceutical, Biotechnology

Job Location

Worthing, England, UK, BN11,
